

Northampton County Medical Society

Mission Statement

The Northampton County Medical society is a non-profit professional organization comprised of member Physicians, Residents, Medical Students and Professional Medical Office Administrators who are members of both our county medical society and members of the Pennsylvania Medical Society.

The Northampton Medical Society as an organization exists as a service to our profession, to our patients, and to our community. The Northampton County Medical Society brings physicians together collectively in order to develop a platform from which to set standards, advance education, engage with Legislators on healthcare issues, speak to the community, pursue the best medical care for our citizens and above all protect the Patient/Physician relationship. Through the Northampton Medical Society, physicians of organized medicine can advocate for our patients and the general medical community on a local and state level.
